DECLARATION OF JAMES D. ISAACSON IN SUPPORT OF PETITION UNDER 37 C.F.R. § 1.182

Commissioner of Patents
2900 Crystal Drive
Arlington, VA 22202-3513

Dear Sir:

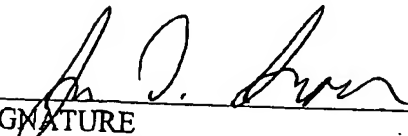

I, James D. Isaacson—also known as Jim Isaacson—a citizen of the United States of America, declare that:

1. On February 28, 2005, an international patent application was filed in the PCT Receiving Office of the U.S. Patent and Trademark Office and was assigned application number PCT/US05/06437 and listed myself as the second inventor along with inventors Ralph Koschinsky and Robert F. Hause. My name shown on the cover page of the publication for the PCT/US05/06437 patent application appeared as Jim Isaacson.
2. On July 26, 2006, a U.S. patent application was filed with the U.S. Patent and Trademark Office, which was assigned Application No. 10/587,429, and claimed priority to PCT application number PCT/US05/06437.
3. On April 18, 2007, a declaration for U.S. Application No. 10/587,429 was filed with the U.S. Patent and Trademark Office. In that declaration, my name was stated as James D. Isaacson.
4. On June 29, 2007, a Communication was mailed by the U. S. Patent and Trademark Office stating a discrepancy in the declaration associated with U.S. Application No. 10/587,429. As stated in the Communication, the discrepancy was with respect to a difference in name of the second listed inventor. That is, PCT patent application number PCT/US05/06437 shows my name as Jim Isaacson, while the declaration for U.S. Application No. 10/587,429 lists my name

as James D. Isaacson.

5. I hereby declare that my name, James D. Isaacson, as indicated and signed on the declaration of the inventors for U.S. Application No. 10/587,429 is indeed my correct legal name.
6. I hereby declare that the name, Jim Isaacson, as indicated on the publication of PCT application number PCT/US05/06437 is an alias of mine. That is, both names--James D. Isaacson and Jim Isaacson--indicate the same person, i.e., myself.
7. Accordingly, the declaration submitted on April 18, 2007 and executed by all the inventors on August 9, 2007, should be accepted by the U. S. Patent and Trademark Office and entered into the application.
8. All statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and, further, that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under § 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the Application or any patent resulting therefrom.
